

KYNETIK KONCEPTS

ENERGY IN MOTION.

THE MODERN COACHBUILDER · DUBAI

THE ORIGIN

AT THE DAWN OF THE AUTOMOBILE, A CAR WAS THE WORK OF TWO HANDS.

The manufacturer supplied the machine: the chassis, the engine, the engineering that gave it life. The owner then entrusted that machine to a coachbuilder, to a house such as Mulliner, Zagato or Touring, who clothed it in a body made for one client and no other.

Two cars might share every mechanical part, yet share nothing of their character. To own a car was to express oneself.

Mass production brought that era to a close. It gave the world dependable, affordable motoring, and quietly took the individual away.

Kynetik exists to restore what was lost.

THE RETURN OF THE COACHBUILDER

THE CAR NOW ARRIVES WHERE THE HORSE ONCE STOOD.

Mass production gave every driveway a car. In doing so, it gave them all the same silhouette, the same interior, the same machine.

The ground is shifting once more. Electrification, autonomy, and a new generation of makers are assuming the work of moving people from place to place. The car is being relieved of its duty.

And a machine relieved of duty becomes what the horse became. No longer necessary. Treasured all the more. Kept for love, for craft, for the sheer pleasure of it.

Kynetik is the coachbuilder for this moment.

Carbon fibre is our coachwork. Modern, proven platforms are our chassis. And we honour the promise the old houses could never make. Because our foundations are contemporary, utility and reliability are never surrendered.

The coach is personal. The machine beneath remains dependable.

Our name carries the idea. **KYNETIK**.
Energy in motion.

THE PROMISE

HERITAGE YOU CAN DRIVE EVERY DAY.

The cars we adore were seldom easy to live with. Beautiful, yet cumbersome. Loud, prone to overheating, fragile in the day to day.

Kynetik closes that distance.

We preserve the shape a generation fell in love with, and build it upon engineering that answers every morning. The form you cherish, without the compromises that once came with it. Nothing modern motoring has perfected is surrendered to achieve it.

The coach is personal. The machine remains dependable.

ON THE ROAD

04

KYNETIK

WHAT WE MAKE

ONE PHILOSOPHY. MANY WAYS TO BEGIN.

Every Kynetik creation is a coach built in carbon fibre, by the same hands, to the same standard.

- | | | |
|----|--------------------|--|
| 01 | BESPOKE ONE-OF-ONE | A single car for a single client. |
| 02 | KARBON IKONICS | Iconic silhouettes carried on modern platforms. |
| 03 | KARBON KLASSICS | A classic reborn in carbon. |
| 04 | KARBON ELEKTRIC | Carbon transformation for the car you already drive. |
| 05 | KARBON TOYS | The same craft, made for the sand. |

BESPOKE ONE-OF-ONE

ONE OF ONE. THE PUREST FORM OF THE ART.

You bring the car you love, and the vision you hold for it. We bring that vision into being.

Together we shape the design in three dimensions, refining it alongside you until it is precisely right. Your car becomes the foundation. We recreate its body in carbon fibre, form by form, until it wears the character you always saw within it.

Every decision remains yours. Colour, material, surface, detail.

Nothing like it will exist anywhere else in the world.

KARBON IKONICS

LEGENDS, CARRIED ON MODERN MACHINES.

Karbon Ikonics is the coachbuilder's art brought to the contemporary car.

We take a proven platform, a Toyota Supra, a BMW Z4, and reclothe it in the silhouette of an icon, recreated in carbon fibre. The shape a generation fell in love with, set upon mechanicals that start each morning and never falter in traffic.

Heritage above. Factory reliability beneath. Produced in limited numbers.

MODERN PLATFORM, RECLOTHED

07

KYNETIK

KARBON KLASSICS

A CLASSIC, KEPT IN SOUL, RENEWED IN ALL ELSE.

Karbon Classics rebodies a classic in carbon fibre. Its soul preserved.
All that surrounds it made new.

The first is the Karbon Kobra. The lines that made the original immortal,
recreated in carbon and set upon modern underpinnings.

A classic to be driven as one drives a modern car.

KARBON ELEKTRIC

COACHBUILDING FOR THE CAR ALREADY IN YOUR DRIVEWAY.

Karbon Elektrik brings the coachbuilder to the modern electric car.

For Porsche Taycan and Audi e-tron owners, we transform the car you already drive in carbon fibre, without disturbing what makes it dependable.

The drivetrain remains factory. The character becomes wholly your own.

09

PORSCHE TAYCAN · CARBON COACHWORK

KYNETIK

KARBON TOYS

THE SAME CRAFT, BEYOND THE ROAD.

Expression does not end where the tarmac does.

Karbon Toys carries the Kynetik philosophy onto the sand. The Can-Am reimagined as a Lamborghini-styled machine, built for the dunes.

Off-road craft that looks extraordinary and performs without fault.

SERVICES

THE CRAFT, AVAILABLE TODAY.

Alongside our builds, our services extend the same standard to any vehicle.

PROTECTIVE COACHWORK

Our TPU paint protection spray safeguards the finish of any car. Advanced, all but invisible, offered as a standing service.

THE INTERIOR DEPARTMENT

Bespoke cabins, retrims and carbon trim. The most personal surface of any vehicle, composed to the taste of its owner.

CARBON EXTERIOR PANELS

Bespoke panels moulded to fit and to endure. One of one, or a limited run.

THE FACILITY

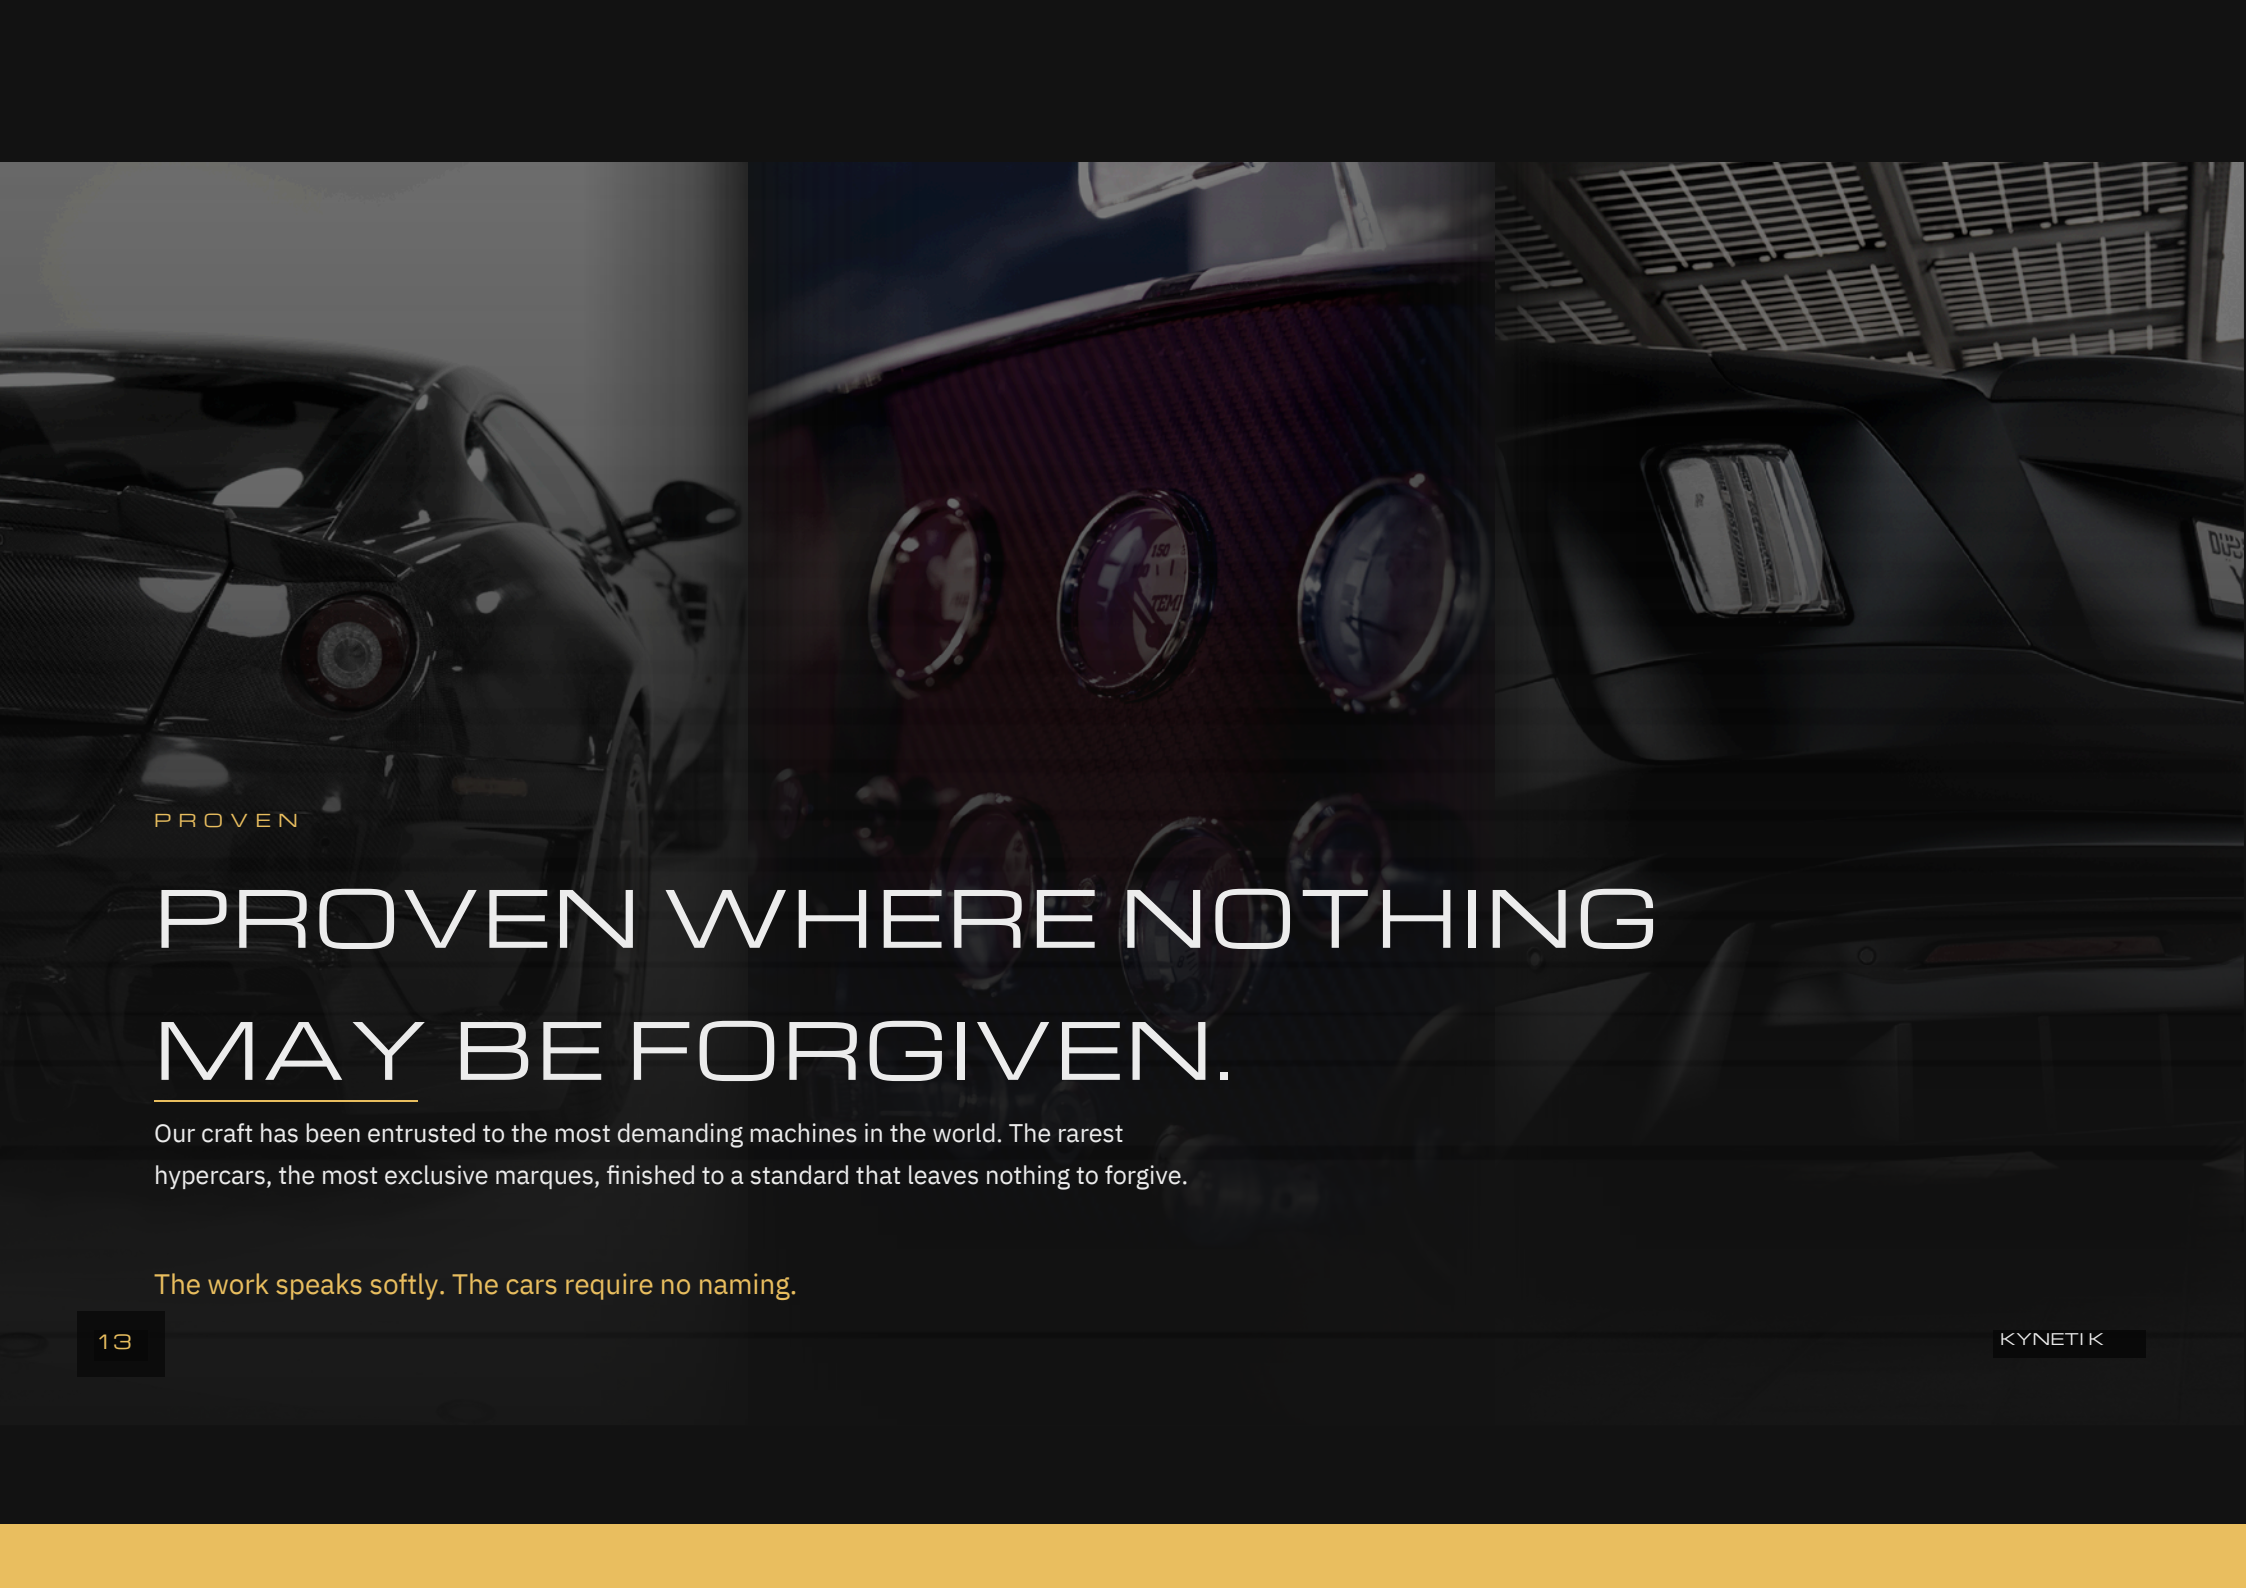

THE TOOLS OF THE MANUFACTURER, TURNED TOWARD THE ONE.

We build as the great manufacturers build. We design in three dimensions. We prototype and print. We reverse-engineer, refine, and mould in carbon fibre, then finish to a depth the eye perceives before it can name.

The very technology used to create cars in their thousands, devoted to the making of just one.

Design, 3D printing, prototyping and fitment, held to one standard, under one team.

PROVEN

PROVEN WHERE NOTHING MAY BE FORGIVEN.

Our craft has been entrusted to the most demanding machines in the world. The rarest hypercars, the most exclusive marques, finished to a standard that leaves nothing to forgive.

The work speaks softly. The cars require no naming.

WHAT WE STAND FOR

FIVE THINGS WE WILL NOT COMPROMISE.

01

DESIGN FIDELITY

We preserve the essence and emotion of every icon we reference.

02

DAILY EASE

Utility and reliability come first, without exception.

03

SELF-EXPRESSION

Every coach reflects the person who commissioned it.

04

PLAYFUL UTILITY

The same craft, carried onto the sand.

05

CARE AND CRAFT

Devotion to detail, and relationships that endure.

THE INVITATION

BRING US THE CAR YOU LOVE.

Every Kynetik creation begins with a conversation. Tell us what you see when you imagine it. We will build it in carbon fibre, upon engineering you can trust, and we will build it to be yours alone.
